Press Release

Galleries come together to launch a collaborative online exhibitions platform
– *In Touch*

In Touch - Edition 1

April 24 – July 24, 2020

In Touch is a digital exhibitions platform created in partnership between galleries to present online exhibitions. Its collaborative nature makes this a unique platform bringing together a diverse range of programs and artists. In its first edition, *In Touch* presents ten galleries from India and Dubai. Participating galleries are Chemould Prescott Road, Bombay; Experimenter, Kolkata; Gallery Espace, New Delhi; Green Art Gallery, Dubai; Grey Noise, Dubai; Nature Morte, New Delhi; PHOTOINK, New Delhi; GALLERYYSKE, Bangalore/New Delhi; The Third Line, Dubai; and Vadehra Art Gallery, New Delhi.

The platform enables the art community to connect with each other through organized and synergistic exhibition-making that challenges traditional formats of engaging with art and brings together a diverse range of online programs and exhibitions.

The initiative was conceived as a response to the COVID-19 pandemic, which caused an unprecedented physical closure of public spaces and cultural institutions worldwide. Editions of *In Touch* will be on view for a month with each gallery presenting an exhibition that will change with every following iteration.

The website – www.artintouch.in – hosts dedicated sections for each gallery's exhibitions through which viewers can consider the works on view and directly reach the participating galleries. The *In Touch* platform will additionally host collateral online programming including gallerist connects and artist talks conducted digitally.

For further information on the platform, please write to us at info.artintouch@gmail.com or visit www.artintouch.in.
